

Job Title: Junior Back-End Web Developer
Department: Web
Report to: IT Technical Director

About Us

Media 10 is an award winning media and events company based in Loughton. As one of the leading players in the industry we run some of the most iconic and successful events and magazines in the UK, Shanghai and South Africa.

Our award-winning portfolio includes over 30 events ranging from design, interiors, lifestyle and construction such as Grand Designs Live, Design Shanghai, 100% Design, the Ideal Home Show and Clerkenwell Design Week.

The Role

As the Junior Backend Web Developer, your primary role will be to develop and maintain websites for both current and future Media 10 products while helping to push the department forward as a whole.

The ideal candidate must have an eye for detail, quick learner, approachable with excellent time management. You will have a genuine interest in the sector and will be looking to not only develop yourself but also the code you write.

Key Responsibilities

- Backend development of code and databases for current and new projects.
- Creation and design of new modules and framework
- Enhancement of third party modules
- Template development
- Test and QA of all applications and development

What you are good at

- 1-2+ years proven back-end development experience
- MySQL
- PHP
- JQuery Framework
- AJAX
- MVC Architecture (Joomla and Wordpress Extensions)
- Magento (Including Extensions) desirable
- Experience of building new extensions in MVC framework
- Good communication skills

What we will do for you

- Make you feel like part of a family
- Know your name – you're not just a number here
- Encourage you to develop your skills, strengths and career
- Recognise your contribution and hard work
- You will get to work on the best brands in the industry
- Make sure you're never bored
- Love our company parties
- Make sure you have fun – because we do have fun
